

## Center Axis Relock System (CAR)

2 Day CAR System Firearms Training

April 28th & 29th, 2018 Lancaster CA

**This course is designed to teach the student how the CAR System immediately integrates into their existing firearms skill set**

Most people know it from the John Wick movies or the Splinter Cell video game. The Center Axis Relock (CAR) System for Close Quarter Firearms Defense is an actual technique created by the late Paul Castle. The system is still being taught by the Master Instructors Paul Castle trained and personally certified [www.SabreTactical.com](http://www.SabreTactical.com)

Force 5 Training Center located in Lancaster CA is hosting a 2 Day Classroom and Live Fire range course for those interested in learning the CAR System. Come and learn how CAR fits seamlessly into your existing firearms skill set and immediately increases your efficiency and safety in close quarter engagements.

Join us in a safe and fun learning environment, starting with Safety, Marksmanship Fundamentals and the CAR System Basic Principles. Then moving to live fire, progressions for multiple targets, shooting on the move, shooting from inside a vehicle and more.

**Students must have a solid foundation in firearms safety and provide background check or valid Concealed Carry Permit**

- Tuition is regularly \$350.00  
**\*\*FORCE 5 Training Center Special\*\*  
\$250.00 fee** (if full payment received by March 1, 2018)
- \$225.00 for Active or Retired Military and First Responders (Full payment must be received by March 1, 2018 & must provide proof/id of employment).

**Training will stress safety first and cover:**

- The CAR System's 6Rs (Reacting, Reducing, Reloading, Recovery, Returning, Retention).
- How to draw, how to move and shoot in multiple directions, how to engage multiple targets stationary and on the move, how to defend from inside a vehicle and unconventional positions like fighting from on the ground.
- Learn CARs Unmatched Weapon Retention Techniques.

**Proper methods to continue practicing CAR on your own to continue improving your skill set.**

**Come join us in a professional, safe, and fun environment to learn this real world proven firearms technique!**
